

David,

I would like to thank you for bringing Smartlister into my trade. For years I could not find anything that could do what Smartlister does. It gives me the flexibility to list any parts on my project as I draw. I am able to list anything. I do some pretty complicated fixtures and no software could give me an easy and accurate cutlist like Smartlister does. And thank you for the 3D tutorial. It helps in getting started. I will highly recommend your software to anyone in my trade.

Hope to meet with you at the show.
